

A man in a dark suit jacket is seen from behind, standing on a construction site. He has his arms raised, with his hands resting on a metal railing or structure. The background shows a grid of steel beams and concrete slabs, suggesting a high-rise building under construction. The entire scene is overlaid with a semi-transparent blue filter. On the left side, there are decorative blue graphic elements: a vertical bar and a curved shape that partially frames the text.

Social Recognition

Uniview donated Heat-tracking products to multiple countries to help fight against Covid-19, received social recognition.

Japan, Ishikawa Prefectural Government

Thailand, government representatives attended device donation

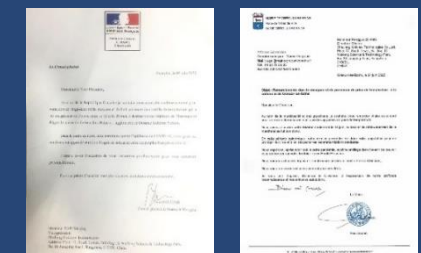

Panama, first lady attended device donation

Malaysia, Ministry of Women, Family and Social Development

Thanks letter from French Embassy in China

Vision: Unlimited New View

Mission:

Uniview, consider ourselves as a citizen of the world, endeavors to build a safer world based on professionalism and reliability, move forward with fortitude, so as to achieve innovation, prosperity and continuous progress.

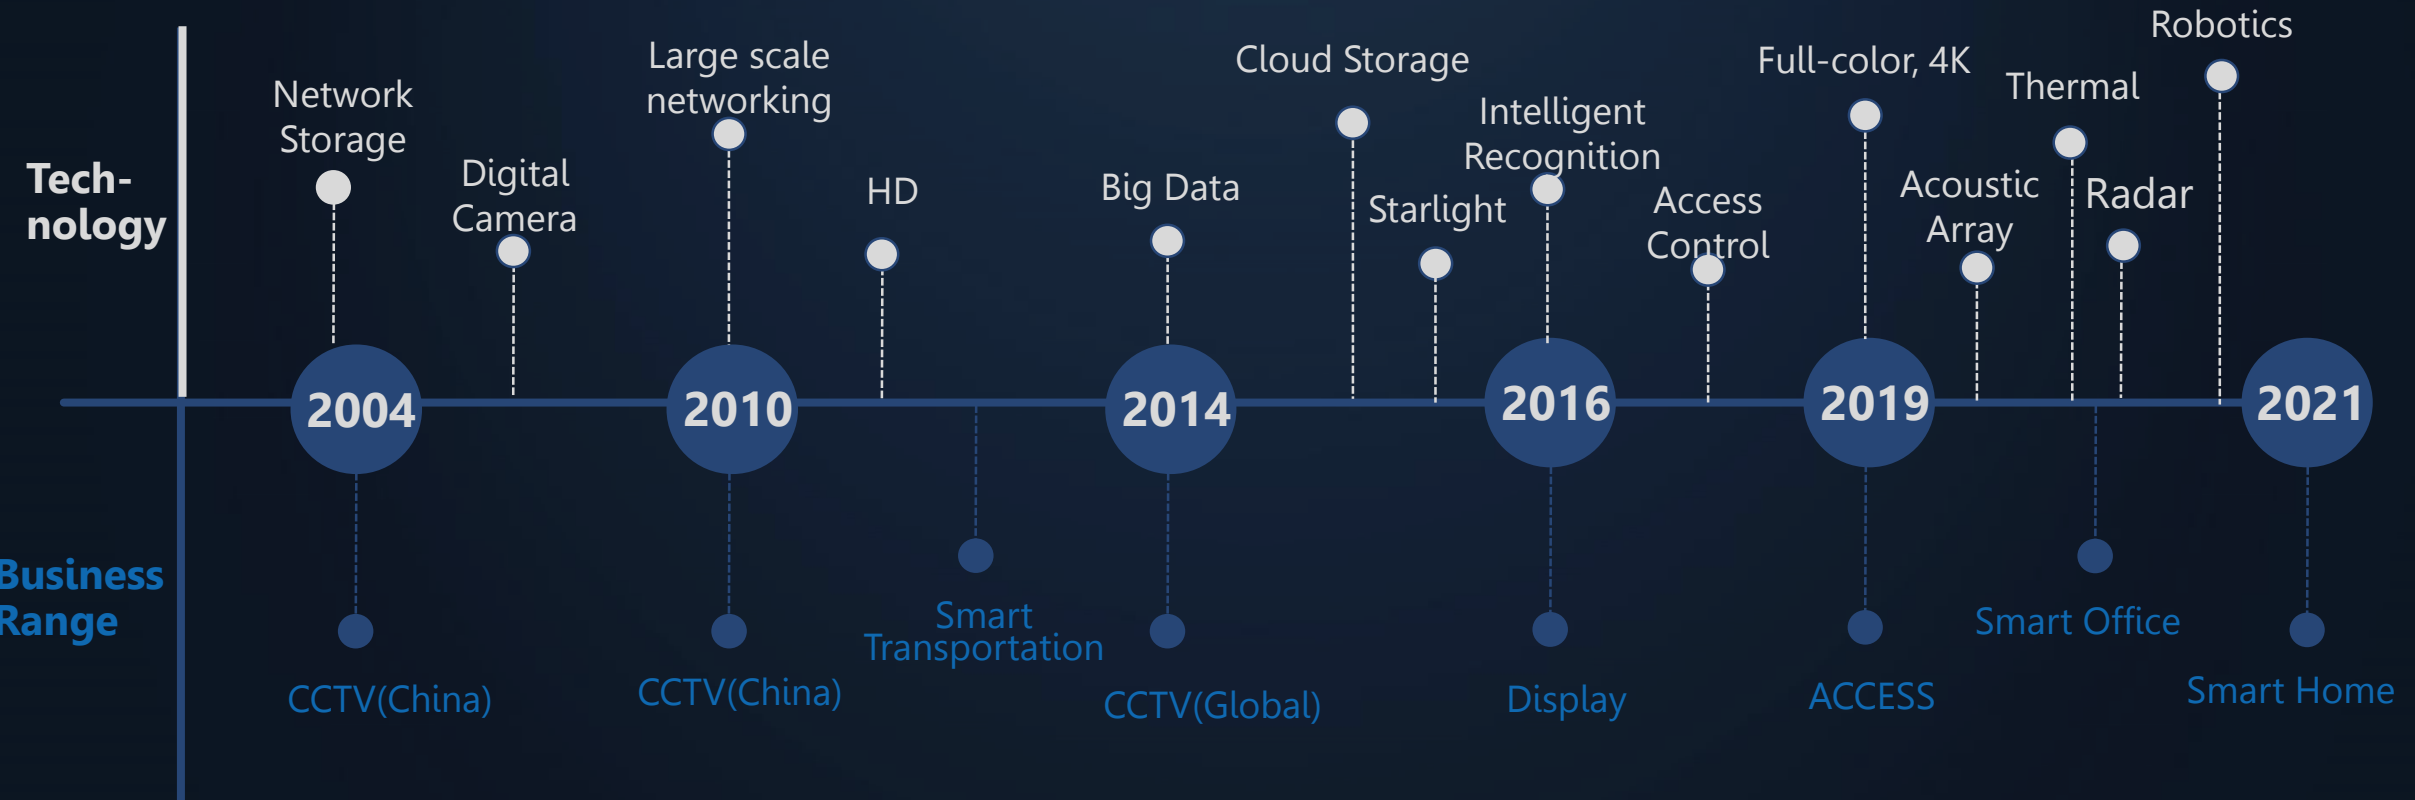

Value:

Innovative & Pragmatic | Collaborative & Win-win | Simple & Equal | To Continuously Improve

Products & Technologies

Always stay sharp for innovation

From IT to AIoT 16 years of unlimited exploration

Technology trends: big data, cloud computing, IoT, AI

Product trends: wider product line, empower partner, enable better life

IPC & PTZ Family

3 Series, 20+ Subseries, 250+ Products

PRO

Pro series is the most powerful series for vertical market which contains products of panoramic, thermal, high frame rate and metadata

**Omniview
4*2MP**

4K Fisheye

X10/X22 Bullet

Alphaview

Alphaview PTZ

Thermal Series

**Positioning
System**

PRIME

Prime series is the cost-effective series for SMB market which contains products of active deterrence, LightHunter, ColorHunter and SIP

**Prime I Normal
2/4/5/8MP LightHunter+AI**

**Prime I Tri-Guard
4/5/8MP Active deterrence**

**Prime I Fixed Big Bullet
2/4/5MP 80M IR**

**Prime I Mini Dome
2/4MP LightHunter + AI**

**4 Inch PTZ Series
4MP LightHunter + AI**

**Prime II
4/5/8MP LightHunter + AI**

**Prime III ColorHunter
4/5/8MP AI**

**Prime III Project
4/8MP VF F1.2+1/1.8 Sensor**

**Prime IV
4MP VF F1.2+1/1.8 Sensor**

**6 Inch PTZ Series
2/4/8MP LightHunter + AI**

EASY

Easy series is the entry series for distribution market which contains products of WDR, dual-way talk, Easystar and human body detection

**EasyBasic
2/3/4/5MP WDR**

**EasyStar
4/5/8MP Starlight**

**Easy ColorHunter
2MP Mic & Speaker**

**Dual-lens PTZ Camera
2MP+2MP Mic & Speaker**

**Active Deterrence
2MP Mic & Speaker**

From Seeing to Perceiving

How to detect the target accurately in low-light environment?

Traditional Infrared Camera

- Black and white image, blurry details under low illumination
- Limitations in color extraction and details, low detection accuracy

VS

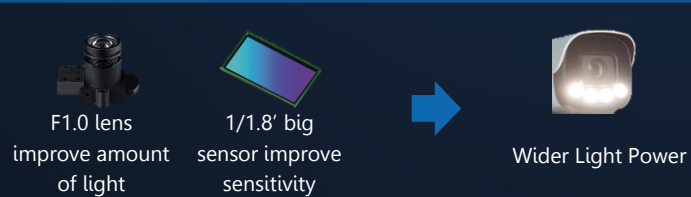

UNV ColorHunter

- Colorful and clear image under low illumination
- Higher detection accuracy at night

ColorHunter Design Process

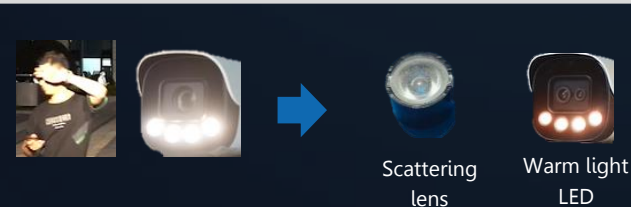

Match and choose the LED, lens and sensor

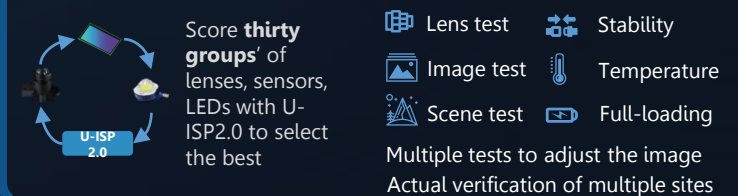

Adjust the brightness difference caused by face reflection

Balance lighting and eye's stimulation

Device selection, test and field confirmation

NVR Family

PRO

Vertical market

As the most powerful series, Pro series is equipped with the largest storage space, the most reliable stability and the further expansion capability.

NVR516

16 HDDs, 64/128 channels, 16*1080P decoding ability, power redundant, disk enclosure

NVR824

24 HDDs, 128/256 channels, 20*1080P decoding ability, power redundant, disk enclosure

PRIME

SMB market

Designed for projects, Prime series owns enough bandwidth, decoding ability and smart functions for IPC access, and also abundant interfaces for the possible linkage.

NVR304-X

8 HDDs, 16/32/64 channels, 16*1080P decoding ability

NVR308-X

8 HDDs, 16/32/64 channels, 16*1080P decoding ability

NVR316

16 HDDs, 32/64 channels, 16*1080P decoding ability

EASY

Distribution market

Easy-to-use and variety of Easy series satisfy different choices in differen scenarios, and meet the need of entry-level operators.

NVR302-S2

2 HDDs, 8/16/32 channels, 8*1080P decoding ability

NVR302-E2

2 HDDs, 8/16/32 channels, 10*1080P decoding ability

NVR304-S

4 HDDs, 16/32 channels, 8*1080P decoding ability

NVR304-E2

4 HDDs, 16/32 channels, 10*1080P decoding ability

Wifi kit

1*NVR: 4*1080P decoding
4*IPCs: 2MP

NVR301-S3

1 HDD, 4/8/16 channels, 4*1080P decoding ability

NVR301-X

1 HDD, 4/8/16 channels, 8*1080P decoding ability

NVR302-S

2 HDDs, 8/16 channels, 4*1080P decoding ability

From Single Storage to Diversified Storage

What **CHANGES** does AI bring on data storage?

Increase of data amount

- More attention to video surveillance.
- Richer scenarios and more equipment connections (such as access control).

Increase of data variety

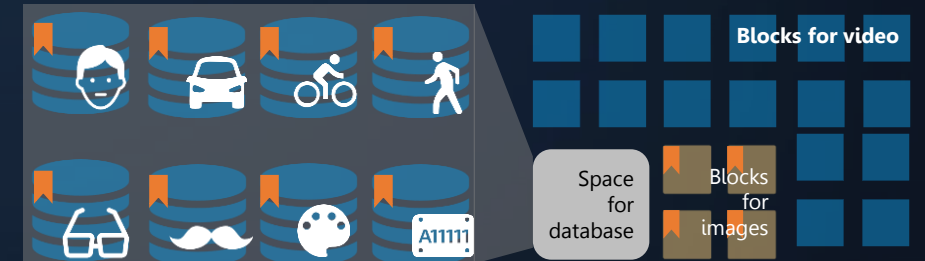

- Based on AI development, image storage is of considerable importance.
- Metadata emerges to lead the more delicacy data management.

In this background, it's important to guarantee the most concerned **stable storage** and **fast retrieval**

What **SOLUTIONS** does Uniview have? Universal Block Storage

UBS framework

No-loss tech Fast-positioning tech

Keep the integrity of crucial video

Fast retrieval of video and image

Video footage and frames are marked with labels for fast positioning in all video blocks

When searching the alarm-triggered snapshots, database and UBS system help with fast positioning in the classified image blocks

Easy Tools, Efficient Deployment & Maintenance

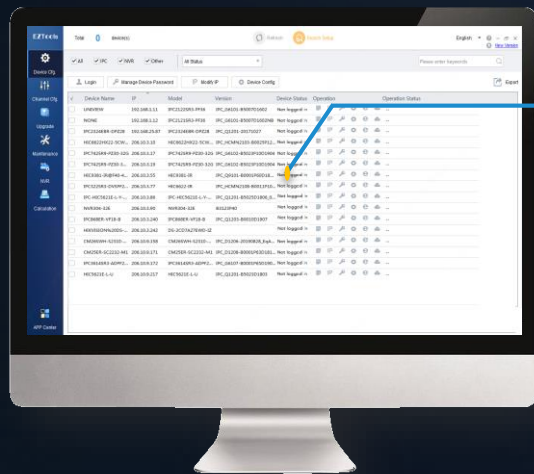

According to the survey, **70%** of our customers commented that the UNV tools greatly saves the installation cost and are ones of the best products of Uniview. 

EZTools

Various batch operations

One-step fast configuration experience

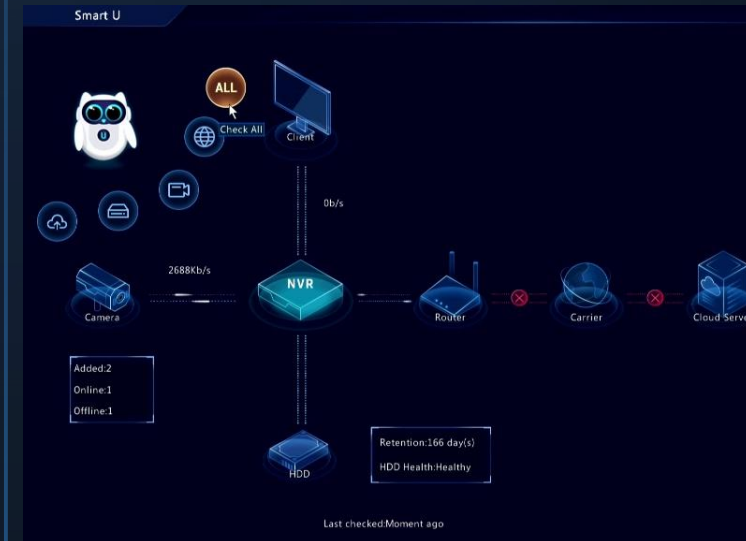

Various batch operations are supported:

- ◆ device login
- ◆ Device restart
- ◆ Device configuration
- ◆ Planning Device IP
- ◆ Modify device password
- ◆ restore configuration
- ◆ Export device diagnostic information
- ◆ Import and export device configuration
- ◆ Equipment upgrade

Project Products

If you are a system integrator and are facing a complex engineering project, the following products are recommended:

Large-scale stable management platform

400,000 Device accessed

Hundreds of billions of Data management

3500+ Project delivery

900+ City projects

15 years+ Trouble-free operation

99.999 % System availability

Hyper-converged analytics device

3-in-1 Fusion design

11 Built-in algorithms

50 million Multi-dimensional data storage

60% Reduction of deployment space

90% Reduction of installation time

Highly reliable network storage

60-bay 4U high-density design

4000-channel Cabinet storage

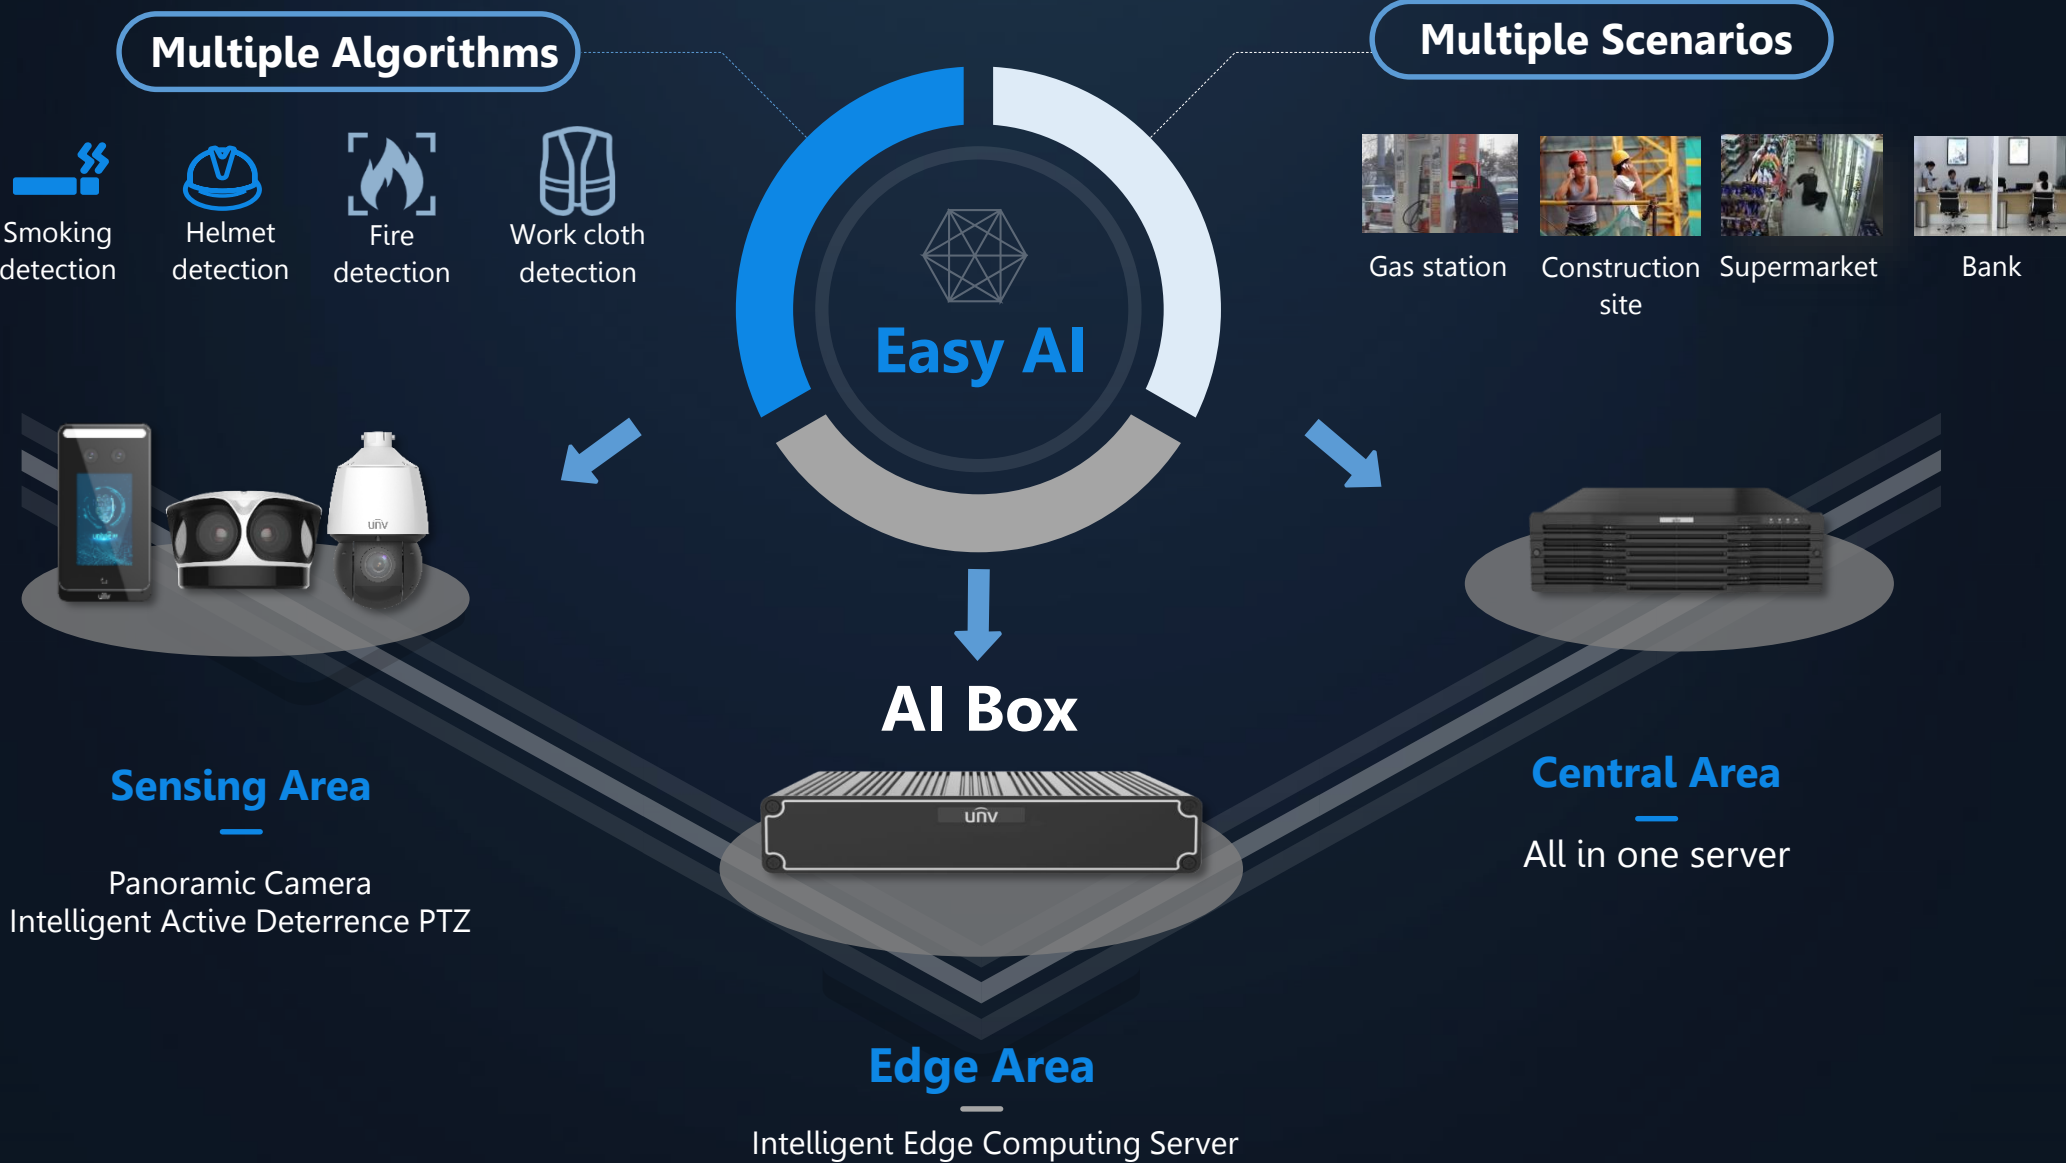

\$5/TB Landing cost

5-year 24/7 data protection

4-layer Data protection

0% Data loss

Easy AI for Broader Project Adaptation

Manufacturing & Logistics

Where productivity meets reliability

End-to-end Rigorous Quality Control

Full Product Life Cycle Test System

The birth of a product requires **686** tests and reviews!

Part Selection Stage

Component-level reliability testing

Part analysis laboratory

The industry's first laboratory with specialized component-level analysis capabilities. 1.6 million USD equipment investment.

Development Stage

Single-board-level circuit testing

System-level whole machine testing

Product Environmental reliability Testing

Reliability laboratory

The industry's first laboratory with specialized component-level analysis capabilities. 1.6million USD equipment investment.

Trial Stage

Batch manufacturability testing

Test center laboratory

Industry-leading testing instruments, with a cumulative investment of nearly 15 million USD.

Mass Production

Full line automated functional testing

Intelligent Manufacturing, Lean Production

Global Intelligent Manufacturing Base

- 2,0000 m² Manufacturing Bases in China
- Tongxiang & Jiaying bases' production capacity: 8,0000 units per day
- India factories: 500,0000 units per year
- Employees: more than 1,000 people.

AGV Robots: Efficiency Improvement

- Manufacturing centers, logistics and storage centers. Employees: more than 1,000 people.

Fully Automatic SMT Production Line

- Annual output of high-end video surveillance products exceeds 8 million units, with an output value of over 615 million USD

First-rate Delivery Ability, Globalized Logistics

5
warehouses
